LABORATORY NO. 91969-27-001

REFERENCE NO. SK-32-117

SAMPLE DESCRIBED AS:

DATE RECEIVED: 4-15-10

Aero-Green 4025 Airport High Pressure Cleaner

SAMPLE: Hi-Lite Solutions Inc.  
SOURCE: 1285 Brucetown Road  
Clear Brook VA 22624

---

Clean Air Solvent (CAS) eligibility determination by SCAQMD Method 313-91.

All analyses were performed on the product as received.

There were no VOHAP, ODC or GWC detected.

The reactivity of the compound detected is below the MIR value of toluene:

The VOC is estimated to be 50 g/L.

The VOC composite partial pressure is estimated as < 1 mm Hg.

Based on the dilution (1:3) as stated on the Analysis Requested Sheet,  
the VOC is 10 g/L

**Conclusion: The product meets CAS criteria.**

Date Approved: 6-22-2010
